About Cook Medical

Founded in 1963, Cook Medical pioneered many of the medical devices now commonly used to perform minimally invasive medical procedures throughout the body. Today, the company integrates medical devices, drugs and biologic grafts to enhance patient safety and improve clinical outcomes.

Cook is a past winner of the prestigious Medical Device Manufacturer of the Year Award from *Medical Device & Diagnostic Industry* magazine. It is a major partner with the Chamber of Commerce, providing sponsorships for many Chamber programs.

Today, Cook is among the world's best known and most respected names in the medical device industry and is closely allied with leading medical research facilities, teaching hospitals and renowned medical specialists around the world. Cook continues to provide innovative, physician-conceived medical devices to healthcare providers the world over who demand the best for their patients.

The company integrates device design, biopharma, gene and cell therapy and biotech to enhance patient safety and improve clinical outcomes in the fields of:

- Aortic Intervention
- Critical Care
- Endoscopy
- Interventional Radiology
- Lead Management
- Peripheral Intervention
- Surgery
- Urology
- Women's Health

Since its inception, Cook has operated as a family-held private corporation. For more information, visit www.cookmedical.com.
